Dear Artis Customer,

We continue to experience increases in metal, labor, and freight costs that force us to adjust our prices. In the past, we have adjusted prices infrequently, so it is difficult for us to announce multiple increases in a short period of time.

In light of our cost increases, we will be increasing our list prices by 15% effective October 1, 2021.

You will receive an updated electronic price book via email by Sept 15, 2021, and we will be updating our catalog (without pricing) to accompany the price book. Our excel price book will be easier to use than prior versions.

We will continue re-evaluating costs, and if metal and freight costs decrease substantially, we may see a price decrease in 2022. We are moving to higher quality, higher cost freight companies to avoid lead time and product damage challenges facing all businesses.

Please feel free to reach out to me if you have any questions or concerns. A formal copy of this notification is attached below.

Thank you again for your business, and we look forward to serving you in the future.

Sincerely,

Samantha Gaskell
